Product #1

Performance
High sound-protection and fire-resistance (60 min. tested more possible).

Price
Price parity with concrete. Timber is underperforming or 5-20% more expensive.

Sustainability
80% less CO₂ (>100% possible) than concrete. 45% less timber.

Healthy Room Climate
Thermal mass like concrete and additional moisture regulation of earth.

Speed
Production, planning and delivery comparable to cross laminated timber.
